### NO SUBWAY

Our recipes have been put together with a lot of love & we strongly believe that we have something on the menu for everybody.

We recommend you not to change an item unless it's a TEDS Tip.

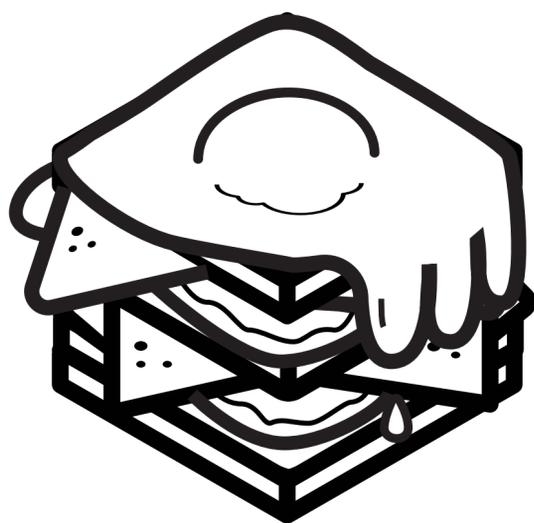

If you do feel the need to change the recipe, this is possible, but we'll have to charge a bit extra (+1) for slowing down the process in the kitchen + the costs of the requested ingredient(s).

Leaving out an ingredient = free  
(if you, for example, think coriander tastes like soap)

Sorry for the discomfort upfront, we ain't Subway.
